Flavored Extra Virgin Olive Oils

Several flavors of EV olive oils available from Castello Monte Vibiano made with their extra virgin olive oil – all first press and cold pressed from approximately 12,000 Frantoio, Moriaolo and Leccino olive trees on the hills surrounding the castle of Monte Vibiano Vecchio In Umbria, Italy

The largest bottle we make and sell is 100 ml/3.4 fl oz; this is due to our unique bottling process that removes oxygen during filling; once bottle is opened oxygen gets back in – and since our oil is such high quality, we are encouraging it to be consumed quicker by limiting the bottle size; otherwise our excellent oil starts to have the quality slide from its peak the longer the bottle is open – and we want you to experience our oils at their best. All currently offered flavors in USA (available in several sizes noted below by flavor):

EV Olive Oil 10-15-19-100 ml bottles, 10 ml pouch, 5 liter tins

Chili infused 100 ml

Truffle infused 10-19-100 ml

Lemon infused 10-19 ml

Lemon-Dill infused 100 ml

Frozen non-filtered

Novello EV Olive Oil

10 ml in 9 pack box; 19 ml size is discontinued after USA stock runs out

Le Moronete brand

10 ml foil pouches

Castello Monte Vibiano brand

Novello Frozen, Non-Filtered Extra Virgin Olive Oil

Every time you open a bottle of our unfiltered olive oil you experience the real taste and pureness of a product that has just been made

World's only non-filtered Novello Extra Virgin Olive Oil – kept frozen for highest quality & maximum shelf life – 10 ml/.33 fl oz individual glass bottle from Umbria, Italy. This product is the first of its kind and is the same quality as the Novello oil you can only get in Italy during the olive crush! Thaws in 20 minutes – then ready to enjoy. In ancient times the olive oil was preserved in urns that were placed in cool rooms of the mills where olive oil was made. Since these rooms were very cold in the winter, the oil was kept frozen until spring, when it started to defrost, and maintained the same features that it had soon after being pressed. We drew inspiration from this very old tradition to offer our customers a unique product. The frozen oil preserves all the organoleptic characteristics, and reduces exposure to heat, light and oxygen, which are the worst enemies of oil. Our frozen product gives people the chance to taste EV olive oil which is always as fresh as you get in Italy. Our revolutionary process removes the pits from the olives and oxygen from the bottle, creating the best tasting oil.
